YONKERS.

About four hundred people from this city visited the State Camp at Peekskill yesterday. The party the State Camp at Peekskill yesterday. The party comprised a large number of relatives and friends of members of Company A, in camp this week, under command of Captain John I. Pruyn. Water has been turned on in the public drinking

fountain in front of Manor Hall. What is believed to be the famous "kissing bug" has made its appearance in this city, and two men are suffering from its painful sting. The first vic-tim was George Smith, a clerk in the local posttim was George Smith, a clerk in the local postoffice, who was bitten early in the present week.

The second is James Welch, an undertaker, who

After many adjournments Judge Kellogg yesterday declared the ball of Adam Sauter forfeited. Sauter was charged by Henry Hoefer, of Nepera Park, with having threatened to kill his sister because she refused to marry him.

The Water Commissioners have received a communication from the Common Council asking that the laborers in the employ of the Department be paid \$1.75 per day. On Thursday evening Commissioner Walsh moved that the request be granted, but it was not seconded. Later the question of paying the calkers \$2 a day was referred to the Committee of the Whole. There is a bitter fight being waged in the Board over an effort recently made to increase the salary of E. L. Peene, superintendent of construction. The minority members assert that if any increase is to be made it should be in the wages of the laborers.

The lawn fete for the heneft of St. Joseph's Hospital will close to-night, after a successful run.

The trouble is that some wheelmen seemed to take determined to the company of the compa light in defacing or destroying whatever came first to hand. They spared not buds nor flowers, and even essayed to cut their names upon trees, benches or anything that came handy. There is a good deal of regret that many of them succeeded, and more that the many who would enjoy the privileges have to be debarred for the sins of the few. Warden Johnson last night laid off six keepers and six guards at the prison, to make room for a like number whose enforced vacation is up to-day. This is done to curtail the running expenses of the prison, and to keep them within the amount of the prison appropriation. The absence of these officers makes it difficult to maintain discipline, and places the number of officers considerably below the number called for by law. to hand. and show cause why he has not appointed a member of the original Board which he named immediately after election to fill the vacancy caused by
the resignation of George Galgano. This Board
met, transacted business and appointed officers,
contrary to the Mayor's wishes, after Mr. Galgano
had declined to serve, and the Mayor based his
action in ousting it on the argument that it was
not a legally organized nor qualified body. If the
courts shall decide in favor of compelling the
Mayor to appoint a new member then a light will
be made under the health laws to legalize the old
Board and all of its appointees. There is also a
fight between P. J. Tierney, clerk of the old Board,
and Frank McGran, his successor. Both men claim
the office, and each has notified the doctors, clergymen and undertakers that records of births, marriages or deaths filed with the other will not be
legal. Mr. Tierney has refused to give up the books

SECRETARY SWAN EXPLAINS REGARDING THE SINKING FUND COMMISSIONERS DISAPPROVAL.

Secretary Swan of the New-York and New-Jersey Bridge Company, speaking of the Sinking Fund | working. Commissioners not approving the location of the proposed freight approach along the river front to the New-York and New-Jersey Bridge, said yesterday: "Their action does not interfere with this great undertaking, nor can it interfere with our rights. It may retard the construction of the freight approach. The Commissioners appointed by the State of New-York have made the location, and the only power the Sinking Fund Commis-sioners have is given to them by an act of Con-

gress.

"The location made by the State Commission of the New-York and New-Jersey Bridge cannot be revoked or taken away from the company. The Court of Appeals of the State of New-York has made a decision in a case similar to ours.

"The company has accepted the acts of the Commissioners, and has invested money in good faith in the project, and we have no fear regarding the final result. It does not affect the location of the bridge no. its passenger approach. These have been granted."

Imitation Baking Powders

Many mixtures made in imitation of baking powders are offered to purchasers who wish and ask for the genuine.

These imitations look like the genuine powders, but when analyzed are found to contain alum, phosphate of lime or sulphuric acid.

Such harsh acids are used because they are strong, as well as cheap, and utterly regardless of the ill effect they must have upon the health when taken in food.

Physicians inform us that dyspepsia, heartburn, sick headache, constipation and kindred disorders follow the use of alum. Everybody will agree that sulphuric acid, which will corrode iron, is not a proper substance to give the human stomach to digest.

Imitation powders cost but a few cents a pound and are sold at twenty-five cents a pound and less. They are, however, dear at any price.

Note.—Alum costs but two cents a pound. Cream of tartar, from which all genuine baking powders are made, costs thirty cents. Cream of tartar makes a pure and healthful leavening agent, and is approved for this purpose by chemists and physiologists everywhere. Hence it is used by the manufacturers of all high-class baking powders who decline to make a powder that may be "cheap" at the expense of its healthfulness.

District-Attorney Gardiner, on behalf of the office and staff of lawyers attached thereto, made a brief speech, regretting the retirement of Justice Hayes and testifying to his high regard for him during the time that he had known him on the bench. He thanked Justice Hayes for the uniform courlesy and kindness with which he had treated the office of the District-Attorney in the four years that he had been an associate justice on the Special Sessions Court beach. This was followed by an address by ex-Assistant District-Attorney Stephen J. O'Hare. William M. Fuller, court clerk, spoke on behalf of the clerical force in the court, and Justice Holbrook made a brief address on behalf of himself and his colleagues on the bench. Justice Hayes in his reply expressed himself as being deeply grateful for the kind words spoken.

NEW SHIP FOR NORTH GERMAN LLOYD.

ARRANGEMENTS TO TAKE CARE OF THE PAS SENGERS OF THE KAISER PRIEDRICH.

Ocirichs & Co., New-York agents of the North German Lloyd Steamship Company, announce that they have just received the following dispatch from their company in Bremen:

Negotiations are now pending between the North German Lloyd and the Vulcan Shipbuilding Com-pany, of Stettin, with reference to the construction of a new fast twin-screw steamship of from twen-ty-three to twenty-four knots for the Bremen-Southampton-New-York line, the steamer to be ready for service in the year 1901.

The following notice has been sent out by Oel-

richs & Co.:

On account of the withdrawal of the steamship Kalser Friedrich, which steamer has been returned to her builders, the North German Lloyd have recalled two of their Mediterranean steamships for temporary service in their northern line from Bremen to New-York. The steamship Sanle will sail from Bremen August 15. September 1 and October 16, and will be reinforced or September 12 by the steamship Kalser Wilhelm II. The Saale will sail on September 12 from Bremen, via Southampton, and the Kalser Wilhelm II on the same day, via Cherbourg. In this way it is proposed to take care of all the passengers of the Kalser Friedrich.

MAY BE TAKEN TO THE COURTS E. F. CROKER'S APPOINTMENT AS FIRE

CHIEF MAY BE CONTESTED. QUESTION AS TO ITS LEGALITY, BECAUSE HE PASSED NO CIVIL SERVICE EXAMINATION-

The appointment of Edward F. Croker, nephew of Richard Croker, to the office of Chief of the Fire Department may be contested in the courts on the ground that it was illegal without previous com-petitive examination under Civil Service require-The new Civil Service rules, which were agreed to at the conference between the Municipal Commission and the State Commission early in the week, place the office of Chief of the Fire Department in the classified list and make a competitive examination a necessary requirement for appoint-ment to the office. The Civil Service Commission has not yet formally approved the rules, which probably will go into effect next week, and it is supposed that the action of Fire Commissioner Scannell appointing Croker to the office of Fire Chief was | Louisiana | a piece of sharp practice intended to beat the opera-

tion of the new rules. Several similar appointments to places under the control of the Tammany administration have been made recently, and it is expected that the Municipal Civil Service Commission will refuse to certify to the names of persons appointed to the offices on the payrolls. If such action is taken by the Commis-sion in the case of Chief Croker his case will have to go into court immediately.

Lee Phillips, the secretary of the Commission, said recently that the Commission would not consent to the payment of salaries in such cases. He could not speak about the probable action of the Commission in Croker's case yesterday, and in the afternoon he was called to the Mayor's office for a consultation, the nature of which was not disclosed by the officlais. Politicians will be disappointed if the Commission fails to certify to Chief Croker's name on the Fire Department payroll, because the Tammany officials would not wish to displease Richard Croker by whose orders, it is understood, his nephew was raised to the command of the firemen.

Charles H. Knox, president of the Commission said Croker's appointment was of recent date, and he had not had time to consider it. "The Commislaw," he said. "I cannot say whether or not anything will be done in the matter, because I do not know that the appointment is not proper. The Commission, however, can be depended upon to uphold the law." PORT OF NEW-YORK-FRIDAY, JUNE 30, 1890.

Reform Association, said: "The action of the Fire Commissioner is illegal, and can be defended on no ground. The position of Fire Chief was placed in the competitive class by the new Civil Service rules, which go into operation next week, and the appointment has evidently been hastened by that fact. But, even without these new rules, the promotion is absolutely illegal. Since the passage of the new Civil Service law on April 19 the former rules under which the place of Fire Chief was exempt have been inoperative. The new act allowed no such exemption, unless it were specially granted by the Commission in framing its classification, and since that has not been done, and since the Commission in framing its classification, and since that has not been done, and since the Commission has classified the place of Fire Chief as competitive, there is absolutely no warrant for the action of the Fire Commissioner.

"Just what the Civil Service Reform Association will do in the matter cannot be said now. Since April 19 there have been a number of appointments of this kind. It seems to be a matter of common report that Mr. Croker is an efficient fireman; but that does not relieve the Fire Commissioner of the responsibility of giving other equally good men the opportunity of advancement guaranteed to them by inw."
